

Resolution Drops

APPETITE CONTROL AND DIGESTION AID

STORE IN A COOL, DRY PLACE.

TAKE IT

Place one-half dropper (.5ml)
under tongue for 30 seconds.
Swallow.

DOSE

Three times daily prior to
meals or as directed by your
healthcare professional

An Important Part of Your Health Journey

Resolution Drops are designed to support people who are taking steps toward their healthy weight. Our formula helps reduce food cravings, and assists the body in confronting nausea, bloating, gas, and indigestion. Our formula comes with a recommended diet of three balanced meals a day. This healthy diet consists mostly of proteins and vegetables, limits fruit serving sizes and excludes foods in the starch category. When used together with our suggested 1200 calorie-per-day diet, this formula can be the catalyst for behaviors that assist weight loss.*

This product supports a healthy lifestyle. Individual results are not guaranteed and may vary based on diet and exercise. We cannot and do not guarantee that you will attain a specific or particular result, and you accept the risk that results differ for each individual. Health, fitness, and nutrition success depends on each individual's background, dedication, desire, and motivation. Always consult your healthcare professional before consuming any dietary supplement.

Ingredients:

Ammonium Bromatum

Ammonium Bromatum is used in homeopathic medicine to help users feel an improved sense of overall wellness.*

Avena Sativa

Avena Sativa is derived from the common oat plant and has been used since the Middle Ages. For some people, it helps the body's response to nervousness and anxiety. Studies have shown it has properties similar to a stimulant, antioxidant, and anti-inflammatory.¹

Calcarea Carbonica

Calcarea Carbonica is a natural mineral derived from oyster shells and carbonate of lime. It helps manage unhealthy food cravings and provides beneficial nutrients. * Calcarea Carbonica is being studied for its ability to help users maintain healthy weight after years of use in homeopathic medicine.²

Fucus Vesiculosus

Fucus Vesiculosus is a homeopathic treatment that will support your healthy diet and exercise program. It contains a high concentration of iodine, which is essential for the synthesis of thyroid hormones. Studies prove it is rich in nutrients that assist a variety of the body's systems.³

Graphites

Graphites have been used in homeopathic medicines to help control appetite and improve metabolic function. They are a popular choice, especially, for pregnant women.*

Ignatia Amara

Ignatia Amara is made from a tree native to the Philippines. The use of this substance is often suggested by homeopaths in circumstances where people struggle with nervousness while on a diet. * Scientific studies support its use to help manage anxiety.⁴

Lycopodium Clavatum

Lycopodium Clavatum is made from an extract of clubmoss. The use of this substance is suggested by homeopaths in circumstances where people have constant cravings for sweets and salty foods. In scientific studies, it has been shown to activate certain portions of the brain that can leave you feeling generally better and more satisfied.⁵

Sulfuricum Acidum

Sulfuricum Acidum is a homeopathic treatment for poor eating habits. Some users feel their cravings, especially for sweets, weaken when they use it. Coupled with a nutritious diet, Sulfuricum Acidum can support healthy weight maintenance.*

Thyroidinum

Thyroidinum is derived from the thyroid glands of animals. This substance helps maintain the healthy metabolism of carbohydrates, proteins, and fats. Some studies have indicated its use for maintaining a healthy weight.⁶

Best Used With:

Life Drops help metabolize fats, carbohydrates, and amino acids, leaving you feeling energized.*
