

# Get to know ORANGE

## SOURCED IN BRAZIL

TART

CITRUSY

SWEET

The sweetest of citrus, the orange has long been used in aromatherapy, loved for its support of calming, cooling, and restorative sleep effects. Native to China, the orange is prolific in Chinese medicine for cough, colds, and digestive disorders. Vitamins A, B & C are top-of-the-line in an orange, superior in supporting efforts to stave off infection. Pharmacology research indicated its beneficial properties related to skincare, respiratory and circulatory systems and digestive. Cold press of the freshly ripe or almost ripe peel extracts a rich but sweetly fresh yellow or amber-orange oil.

## CITRUS SINENSIS

+ Excellent aid in support of antiseptics, anti-inflammatories

+ Promotes feelings of improved mood & sense of calm

+ Aids in supporting exercise performance

+ Supportive of de-stressed, & calming feelings

\* Caution: If pregnant, nursing, taking medication, or have medical condition, consult a health care practitioner before use. Not intended for use on infants or young children. Avoid eyes, mucous membranes, and sensitive skin.
