Active Ingredients:

Citrus Aurantium

Widely known as "bitter orange extract", Citrus Aurantium is designed to produce fat burning (thermogenic) results. It is a product that is derived from the immature (green) fruits of the Seville orange. Citrus aurantium changes the way your body metabolizes fat and may help you maintain a healthy weight.¹

Garcinia Cambogia

Garcinia Cambogia is a small to medium-sized tree that grows in India and Southeast Asia. The fruit rind contains the chemical hydroxycitric acid (HCA). It's a common ingredient in traditional medicines.*

Ganoderma Lucidum Extract

Ganoderma Lucidum is derived from the cap and stem of the Japanese Reishi mushroom. The primary ingredients are two phytochemicals known as beta-glucan polysaccharides and triterpenes. Reishi has been a popular medicinal herb for at least 2,000 years in the Far East. Additionally, scientific studies have shown it has a supportive effect on the body's overall wellness.²

Green Coffee Bean Extract

This extract is produced from unroasted coffee beans. Early scientific studies point to these beans having a supportive effect on weight maintenance.³
