

# LASHES

**Lashes from Total Life Changes is intended to increase the length and volume of your eyelashes, making them look fuller, longer and curlier. It's a perfect way to enhance your appearance and give yourself long, beautiful lashes if you do not have them naturally.**

## Lashes-3D Fiber Mascara

Lashes from Total Life Changes is intended to increase the length and volume of your eyelashes, making them look fuller, longer and curlier. It's a perfect way to enhance your appearance and give yourself long, beautiful lashes if you do not have them naturally. Lashes is a convenient alternative to costly false eyelash extensions that take anywhere from one to two hours for a professional to apply, which can be somewhat uncomfortable if you have a difficult time sitting still for that long with someone working on your eyes. Extensions are also costly. You can usually expect to spend anywhere from \$100 to \$300 for extensions depending on the type of eyelashes you choose and they require extensive maintenance, usually requiring replacement every six to eight weeks.

Lashes are fast, convenient and effective. It combines a primer & sealer applicator with the technology of the 3D fibers. Lashes enhances the natural beauty of the eyes without the need of false lashes or extensions; it's a must have in every women's makeup bag.

The 100% natural fibers adhere and seal to the eyelashes thanks to the mascara gel. The number of coats applied will determine the volume of the eyelashes, offering versatility of appearance for every occasion. All of these benefits come without the secondary effects from false lashes. Studies have shown that the frequent use of false lashes damages hair follicles, impeding the growth of the natural lashes and causing thinning. In some cases it could lead to severe allergic reactions and eye irritation.

**Benefits:** Fuller and longer eyelashes with one application | 100% natural fibers | Spare the use of false eyelashes and extensions

**Instructions of use:** Apply one coat of the primer & sealer (gel) on the eyelashes, starting near the nose and working outward toward the temple. Apply a coat of 3D fibers on lashes while the gel is still wet, starting from the nose outward toward the temple. Wait one minute to let eyelashes dry. Apply a coat of the mascara gel to seal the fibers onto your eyelashes. Apply an extra coat of 3D fibers to achieve an even more dramatic look. Finish by sealing the fibers with another coat of mascara gel. Remove Lashes with warm water and facial cleanser or makeup remover.

### Ingredients

Mascara gel: water, beeswax, aqua, lanolin alcohol, vegetable carbon black, silicon oil, castor oil, natural resin, nylon, triethanolamine, propylene glycol.

Fiber: 100% natural fibers taken from green tea and black iron oxide
