

# ENVIDIA

## Keep skin healthy and younger-looking

Envidia is formulated with patented human growth factors that include cytokines, chaperone proteins, peptides, and other active ingredients

## Envidia Serum, a collagen synthesis for anti-aging

By supporting collagen synthesis, this anti-aging serum may greatly improve the elasticity of the skin, thus contributing to the appearance of a smoother complexion.

One bottle provides one fluid ounce | 30ml of Envidia Serum.

## Envidia Serum

TLC's formula includes human growth factors that may reduce the appearance of wrinkles and produce a more youthful-looking complexion. Along with facial applications, Envidia can be applied to the neck, chest, and other areas of the body. Our formula is designed to improve the texture and tone of all skin types.

This patented combination of bio-active materials is intended to help revitalize the skin and promote a firmer, younger-looking complexion. The Envidia Serum is designed to naturally accelerate the skin's renewal process by providing the damaged cells with the necessary components of healthy, youthful skin.

### Benefits

Envidia Serum may help to reduce the appearance of lines and wrinkles caused by exposure to UV radiation, dry air, and other harsh environmental conditions.

## Active Ingredients

### Cytokines

Cytokines are referred to as "signaling molecules." Cytokines' benefits include reducing the appearance of age spots and smoothing overall skin pigmentation.

### Chaperone proteins

Molecular chaperone proteins are capable of stabilizing intracellular processes. This is particularly important for skin cells that experience environmental stress.

### Peptides

Peptides used for skin care may prevent long-segment collagen breakdown, produce anti-ageing effects within the skin, and potentially reverse sun damage.

## Instructions for Use

After cleansing the skin, apply a small quantity of Envidia Serum onto the fingers and then gently apply to the face, neck, and chest areas.

For optimum results, apply Envidia Serum during the morning and evening.
