

LASHES

Take your eyelashes past the legal limit

Lashes is a 3D-fiber lash mascara that will instantly add volume to your lashes, compliment the natural beauty of your eyes, and enhance their remarkable appearance.

Long, beautiful lashes—instantly

Our mascara is made from 100% natural fibers extracted from green tea and black iron oxide. Lashes is an easy-to-use combination of primer/sealer and 3D-fiber that creates an immediate impact upon the fullness, length, and curls of eyelashes.

Lashes include one primer/sealer and one 3D fiber application cylinder

Lashes-3D Fiber Mascara

Lashes are fast, convenient, and effective. This mascara combines a primer & sealer applicator with the technology of the 3D fibers. Lashes enhances the natural beauty of the eyes without the application of false lashes or extensions

The 100% natural fibers adhere and seal to the eyelashes thanks to the mascara gel. The number of coats applied will determine the volume of the eyelashes. This offers a versatility of appearance to match every occasion.

Benefits

Lashes is a convenient alternative to costly false eyelash extensions that can take one to two hours for a professional to apply. Instead of spending \$100 to \$300 for extensions that look the same all the time, Lashes' 100%-natural fibers provide you with a choice of length and volume.

Ingredients

Mascara gel | water | beeswax | aqua | lanolin alcohol | vegetable carbon black | silicon oil | castor oil | nylon | natural resin | triethanolamine | propylene glycol

The fiber contained within Lashes is 100% natural and extracted from green tea and black iron oxide.

Instructions for Use

Instructions for use: apply one coat of the primer and sealer gel on the eyelashes. Start near the nose and work outward toward the temple.

Apply a coat of 3D fibers on the eyelashes while the gel is still wet. Wait one minute to let eyelashes dry.

Apply a coat of the mascara gel to seal the fibers onto the eyelashes. Apply an extra coat of 3D fibers to achieve an even more dramatic look. Finish by sealing the fibers with another coat of mascara gel. Remove Lashes with warm water and facial cleanser or makeup remover.

Caution

Lashes is for external use only. Avoid direct contact to eyes. If the product comes in contact with the eyes, rinse with water immediately. If irritation occurs, stop using the product and consult a health care professional.
