

# Chaga

A far east secret that may impact aging and longevity. The extract is one of the newest and most powerful additions to the Iaso® line of supplements. TLC is the first network marketing company to carry 500mg capsules of 100% pure Siberian Chaga Extract. Chaga is known for its high content of super-oxide dismutase (SOD). This is an important enzyme that functions as an antioxidant.

- **Anti-aging**
- **Pure Chaga Extract**
- **Improves The Immune System**

## Iaso® Siberian Chaga Extract

Chaga (*Inonotus obliquus*) is a highly-awarded tonic fungus (mushroom). TLC's Siberian Chaga is a 100%-pure extract collected from forests. The Chaga mushroom is an adaptogen with a high content of super-oxide dismutase (SOD), an important enzyme that may also function as a powerful antioxidant.

As a dietary supplement, adults should take three capsules per day (with or without food) or as directed by a healthcare professional.

## Active Ingredients

### Inonotus Obliquus

This tonic mushroom has long been used in traditional Siberian and Chinese herbalism. The consumption of adaptogenic mushrooms may produce beneficial effects within the nervous system, immune system, GI tract, cardiovascular system, and the endocrine system.

## Special Phenols

Phenolic compounds are known as a "chromogenic complex". This complex helps to protect the tissues of the body and is only found in Chaga. Chaga provides up to 30% chromogenic complex by weight.

## Pantothenic Acid (Vitamin B5)

Chaga contains numerous B vitamins, flavonoids, minerals, and enzymes. Chaga extract is one of the densest sources of pantothenic acid. Vitamin B5 is needed by the adrenal glands and digestive organs.

## Benefits

Chaga has been used as an essential whole food supplement for many years by long-lived villagers of Japan, Korea, and Russia. SOD performs a vital anti-aging function by neutralizing oxygen free radicals that may prevent oxidative damage to cells and tissues.
