

Life Drops

Metabolize fats, carbohydrates and amino acids. Life Drops is formulated to provide the best overall benefits of any known cellular energy complex sold within the industry.

- **Aids Weight Loss**
- **Increases Cellular Energy**
- **Supports Weight Loss**

Iaso® Life Drops

As dieters consume fewer calories, they often cite fatigue as a side effect. Total Life Changes® has engineered this breakthrough product to support weight loss goals and increase energy on a cellular level.

Life Drops is an all-new cellular energy complex designed to be used in combination with Iaso® Resolution. This dietary supplement is taken daily to support weight loss while implementing a suggested 1200-calorie diet.

Active Ingredients

Vitamin B12

Life Drops is formulated with vitamin B12, which has one of the largest and most elaborate chemical structures of all the vitamins. This vitamin is essential for blood cell formation and supports metabolic health within the body.

Biotin

Biotin works with the B-Vitamins to convert carbohydrates into glucose and then convert glucose into ATP energy.

Thiamin

Thiamin is responsible for many enzymatic processes that lead to the growth and development of body cells. This vitamin is needed to form adenosine triphosphate (ATP), the molecule that all cells can use as an energy source.

Vitamin B5 (Pantothenic Acid)

Vitamin B5 works in conjunction with the other B vitamins to produce energy from food. It is also critical to the production of red blood cells and aids in the breakdown of fats and carbohydrates.

Niacin

Niacin aids the body in improving circulation, suppressing inflammation and converting food carbohydrates to glucose, which is the most easily used source of energy.

Vitamin B6

Vitamin B6 assists in the absorption of vitamin B12, which works with eight other B vitamins to provide the body with more energy in the form of glucose.

All of these active ingredients work synergistically to bring you a unique complex that works on a cellular level to boost your energy and metabolism as you accomplish your weight loss goals.
