SUPPRESSES APPETITE WITH EVERY BRUSH

## Healthy Smile, Healthy Weight, Healthier You!

Curb appetite and sugar cravings NOW by simply brushing your teeth regularly. This revolutionary and powerful formula is a brand-new category creator in the industry.

Nine all-natural ingredients make up this instant impact proprietary formula designed to provide improved oral health and weight loss. Expect a big boost in metabolism while significantly decreasing your appetite levels.

The first of its kind in this industry delivers a gentle cleansing with a total of nine naturally occurring minerals, herbs, and oils to rid the body of harmful toxins while reducing inflammation and supporting digestion by balancing gut bacteria.

## Ingredients

### Sodium Bicarbonate

A gently cleansing, naturally alkalizing mineral that neutralizes acids that cause plaque and tooth decay and keeps the mouth in a healthy alkaline state.

### Organic Coconut oil

Coconut oil contains antibacterial lauric acid, which helps reduce plaque and harmful bacteria, resulting in healthier teeth and gums, as well as fresher breath.

### Zinc Oxide

A bright, white mineral that acts as a gentle abrasive.

### Sea Salt

A natural antibacterial, mineral-rich compound to soothe and heal the gums.

### Bentonite Clay

Bentonite clay consists of aged volcanic ash also known as "Montmorillonite." The name comes from the largest known deposit of bentonite clay located in Fort Benton, Montana.

It is an odorless grey/cream color with an almost soft, very fine consistency. Healing clays like bentonite have a high concentration of minerals including silica, calcium, magnesium, sodium, iron, and potassium. It also absorbs and removes toxins, heavy metals, impurities, and chemicals. Because of this, bentonite clay is a common ingredient in detox and cleansing products. It has an alkalizing effect on the body and when taken correctly, it can help balance gut bacteria.

### Organic Green Tea

Green tea extract contains caffeine and catechins, which can boost metabolism, burn fat and help with weight loss. Combining green tea extract with other ingredients may decrease appetite levels and reduce food intake.

### Organic Peppermint

Peppermint oil can help control appetite and cravings. A 2008 study conducted by the Wheeling Jesuit University evaluated the level of hunger of participants after inhaling peppermint oil every 2 hours for five days. Participants who inhaled the peppermint oil experienced less hunger and fewer cravings than those who didn't use the oil. So even smelling the toothpaste will help!

### Organic Cinnamon

Cinnamon oil has been shown to help regulate blood glucose levels, which long-term will help with weight loss and help reduce sugar cravings.

### Organic Ginger

Ginger also reduces sugar cravings and helps reduce inflammation in the body. It's so important that if you're going to lose weight, that you're also reducing inflammation, and supporting digestion and absorption of nutrients.

**Includes stevioside powder for sweetness.**
